Your selectmen, in making annual report of the town farm, feel that some progress is being made in the right direction. Through co-operation with the farm overseer some changes have been made in the live stock that should result in some good. It was thought best to reduce the number of cows, and try to improve upon the quality of those we did keep.

We have been obliged to make some repairs on buildings in order to keep them safe and sanitary. One item was to re-plank the barn floor, which was unsafe. This and other needed repairs have been made from off the farm, without very much expense.

We have bought some house furnishings which were very much needed. We have painted and papered quite a part of the interior of the house, the work being done by Mr. and Mrs. Mack themselves, thereby making quite a saving in the labor expense. Quite a lot more needs to be done the coming year. We feel that the appeal made by Dr. Raymond, through the local paper, to the citizens of Paris, regarding donations of useful articles, has been very helpful and should be appreciated by the town people. We might add that much more could be used to good advantage.

Some changes have taken place in our dependent poor during the past year. William Twitchell, who has been helped more or less during the last two years, was taken to the farm March 18th, and failed steadily until the end which came April 24th. The youngest boy was taken by George Twitchell and wife, and we feel we were very fortunate in placing him in such a good home, with the expense no more than for the children committed to the State, \$2.00 per week.

Floyd Hutchins, who was at the farm when last report was made, was taken to the Pownal Institute in March, and is reported as getting along all O. K.

As to the former John Ripley family, we cannot report as happily; it seems that hard luck has followed

this family wherever they have gone. As many of you know, after about a year we succeeded in getting the boy Carl admitted to the Pownal school some time in the month of May, thinking this was best for everybody interested. About the first of September his mother asked for him to come and make her a visit, and later asked for his discharge, which was granted, and the boy is now with his mother. This was done without the knowledge or consent of the selectmen. About the 8th of December the girl Eva was taken with appendicitis and ordered to the hospital for an operation. This proved to be a pus case and she was in the hospital three weeks. During this time the boy Carl and his brother were boarded out, at the expense of the town. We have been told by the superintendent of the Pownal school that the boy would again be committed. At the present time the family is living in Fryeburg.

We have secured a settlement with the town of Albany on account of L. G. Waterhouse, and his bill, amounting to \$506.25, has been paid in full.

On or about September 10th Henry Elliott called on for assistance, and from that time until December 22d we helped him to some extent, hoping that his sister in Rhode Island would help him, but she did not. On the night of December 22d he was stricken with a shock, and for ten days was under the care of a nurse. As soon as he was able to be moved he was taken to the town farm annex, which is the school house. This we have divided into two rooms, made them warm and comfortable, and have used them for lodging tramps, of which we have lodged thirty-two and given them seventy-four meals during the year.

One of our inmates, Belle Coburn, was stricken with a shock on November 8th, and has been entirely helpless ever since, with no hope of ever being able to help herself in any degree. This has of course caused a large amount of extra work. Under these conditions we

were obliged to furnish extra help, and after having a nurse for three weeks to care for Belle, we hired one Julia Trundy, who acts as nurse or housekeeper, taking turns with Mrs. Mack, and they are getting on fine. We feel we were very fortunate to secure such good help at a reasonable price.

On July 15th we were called upon to make some more satisfactory arrangement for the care of Mrs. Angie Bacon. After consulting Dr. Kay, it was decided to take her to the hospital for treatment. After a three weeks' stay, we moved her to the farm where she is in comfortable quarters, and appears to be contented and satisfied. After consulting with our counsel it was decided to have a guardian appointed to take steps toward saving what might be left of personal property and also her equity, if any, in the real estate. An inventory has been taken, and this property will be converted into cash as opportunity offers.

The family of Lee Dudley are still receiving quite an amount of aid from the town, much more than would seem necessary providing the head of the family was doing his part toward a living.

Thus far we have not been able to secure a settlement with the town of Brunswick in the John Ramsey case, but have not quit trying.

The family of Walter Harding are another heavy expense. This is a large family, and Mr. Harding works all the time, but for some reason or other they do not make both ends meet by quite a long stretch.

About the 2d of December notice was received that Mrs. Flora Clark York had called on the town of Buckfield for assistance for herself and children. Upon investigation it was found that some aid had already been given, and more must be. After several talks with the mother, she consented to have the little boy Frank adopted by Mr. and Mrs. Kinne, of South Paris, and we feel that a good home was secured for the little

fellow. The mother and young child must still have some aid until different plans may be carried out.

There are now thirteen children in the custody of the State, and for each of these we pay \$2.00 per week for board and care, which amounts to a considerable sum in the course of a year.

Your selectmen are convinced that one of the hardest problems they have to deal with is that of properly taking care of the poor and needy, in justice to the taxpayer and fairness to our less fortunate neighbors.

In closing, we would recommend that some plan can be worked out whereby more rooms can be made to accommodate our increasing need of same. We would say regarding conditions at the farm, that stock shows good care, and that the inmates appear to be contented, clean and satisfied. We feel that Mr. and Mrs. Mack have worked hard, and under the existing circumstances have kept the expenses as low as could reasonably be expected. We would recommend that they be retained for another year.

Respectfully submitted,

G. W. RICHARDSON,	}	Selectmen of Paris.

G. W. RICHARDSON.	} Selectmen	
L. H. EMERY.		of
A. M. RYERSON,		Paris.

Report of the Board of Health.

To the Selectmen and the Citizens of Paris :

We herewith submit to you our report for the year 1928, with a tabulation of the diseases that have been reported to the board during the year.

	South End.	West End.	Town.	Deaths.
Tuberculosis,	5	1	6	3
Measles,	27	5	32	0
Mumps,	107	13	120	0
Chicken Pox,	36	17	53	0
Pneumonia,	19	5	24	1
Influenza,	6	0	6	0
Vincent's Angina,	1	0	1	0
Whooping Cough,	4	0	4	0
Scarlet Fever,	3	0	3	0
German Measles,	1	0	1	0
Conjunctivitis,	1	0	1	0
Acute Infectious				
	210	41	251	4

We strongly recommend that toxin-antitoxin immunization against diphtheria be used on all susceptible children attending our public schools, and the indication for such immunization is afforded by the Schick test.

Towns in this state are required by law to offer free vaccination against small pox to all residents, and we are pleased to report that two hundred eighty-two persons have taken advantage of the opportunity.

W. B. RAYMOND, M. D.	} Members of the Board of Health
CHAS. L. ALDRICH, M. D.

Schools of Paris.

Report of School Board.

To the Citizens of Paris :

The members of your School Board beg leave to make the following report :

As more detailed reports will probably be furnished from the various departments the report of the school board will be somewhat brief. We are glad to be able to say that every department on January 1, 1929, showed a balance sufficient to carry it through until the March meeting with no overdraft.

Estimates for next year have already been prepared and submitted. These are based on the amounts expended last year and according to our best judgment are what will be needed to carry on the school work.

We find the schools throughout the town to be running smoothly and we believe the pupils are making good progress. We believe that we have an able and efficient corps of teachers and housing conditions throughout the town are generally good. Transportation has been furnished in every case where the board has considered it necessary.

We wish to thank the citizens of the town for the confidence reposed in us and for the cooperation of teachers and parents generally.

EARLE R. CLIFFORD, Chairman.

AUSTIN P. STEARNS, JR.

HERBERT HILL.

Report of Superintendent of Schools.

To the School Board and Citizens of Paris :

I submit herewith my seventh annual report as Superintendent of your schools.

The general work of the schools has followed the program which the department has worked out and been in force for the past few years. We have tried to formulate a program which would be progressive and follow the best methods now in use. We are constantly studying the latest thought in school work and applying what we believe is applicable to our schools.

In line with this we have changed the basal reading system in the grades. The system in use was based on the rhyme method which put a premium on learning the rhyme as a whole and neglecting the individual word. We have changed to the Bolenius system which builds up the foundation word by word. Immediate improvement of results would be unreasonable to expect, but the results to date indicate that better progress is being made than heretofore.

We have tried to provide the children with better trained teachers. The general policy of the department is to provide normal trained teachers for as many schools as possible. At present we have twelve normal graduates out of twenty-two teachers in the elementary schools. Ten others have attended from one to four summer sessions to acquire additional training. The professional attitude and training of our teachers compares very favorably with any system of the same class in the state.

REPAIRS.

We have maintained our program of putting the small buildings into first class shape as fast as possible. We have painted the interior of those rural buildings which were in the worst condition and have done some outside painting.

Forbes, painted inside and outside.

Partridge, painted inside and outside.

Hollow, painted inside and outside.

Porter rural, painted inside.

North Paris, painted inside.

King, painted inside.

In addition to these repairs we have done the usual amount of general repair work on the large buildings. We were obliged to replace the hot water tank at the South Paris High School building at a cost of \$404.67. We installed a tank considerably larger than the one which burst as our capacity was too small. We have a heater not now in use, and I earnestly recommend that it be installed at West Paris and shower baths connected for both boys and girls.

Two years ago I recommended that something be done about the rear corner wall under the South Paris High School building. At that time it was settled badly and I recommended that it be fixed. The crack was filled with cement at that time but nothing else was done. It is still opening up and is springing the door and window cases in that section of the building. I am calling this to your attention as it should be fixed before it results in permanent damage to the building.

I earnestly recommend that the road line be established and a concrete retaining wall be put up on the end of the athletic field on Pine Street, South Paris. This lot is washing into the road very rapidly. The gullies are now about two feet from the end of the playing field and constitute a decided menace to the players. It will be cheaper to fix this now than later and I recommend that it be taken care of at once.

PHYSICAL EDUCATION.

Attached is the report of the Supervisor of Physical Education. It will bear careful reading. I simply wish to say that I believe that the program as laid out by Mr. Small is one of the most important in the curriculum. It is actually reaching every pupil in the

schools, and should have the support of all those who feel that the physical development of a child is as valuable as the mental. Mr. Small is getting excellent results and the course should be continued.

PERMANENT SCHOOL EQUIPMENT.

Last year the permanent school equipment appropriation was passed over. Whether or not it was thought that money could be saved in this way I do not know. There is so much equipment necessary to run the schools. For instance we have to buy \$240.00 worth of typewriters this year to replace those whose contracts have run out. Money should be raised to cover those things. Otherwise we will have to do without many things which the children need. I am earnestly asking that \$500.00 be raised for permanent school equipment as we are badly in need of certain types of equipment which cannot be logically taken from the supplies account.

MEDICAL INSPECTION.

If our work in the schools is to be efficient it is necessary that we know the child's physical condition. We are too prone to call a child lazy or slow in his school work when if we knew all the facts we would find that his physical condition is not what it should be. Simply because a child eats, sleeps and plays well does not mean that there may not be some minor defect which needs attention. We have many cases in school where children—and consequently their work—are suffering from tonsils, adenoids, teeth or other minor defects which need attention and the parents do not know it. I, therefore, think a sum of money should be appropriated each year to provide that each child be examined every September.

FINANCES.

The financial balance for the year is attached herewith. I would like to call the attention of the voters

that the balances shown therein are as of Dec. 31, 1928, and not as of March 1, 1929. They constitute the money available to run the schools until March 1, and will be spent by the time town meeting is held. Money should be appropriated without regard to these balances, as the money raised in March should be sufficient to leave approximately the same balances as this year.

Town of Paris Budget, 1929.

Insurance account. Ask for \$1,640.00.

Industrial education. Ask for \$600.00.

The budget has been carefully drawn and we are asking for only such sums as we feel are absolutely necessary to finance the schools. I am asking the voters to raise the money asked for by the school department.

We are faced with a situation where every parent, civic worker, employer of men are demanding more from

the schools. The colleges are demanding more and the situation has to be met and financed.

This is not the place to discuss the requirements of the colleges except to say that I believe there is too much pressure from the colleges down in the matter of entrance requirements and not enough from the high schools up. I believe they should pay more attention to the individual requirements of the student and less to making the individual conform to a pedagogical creed much of which is of no immediate value to the student.

As I have said the situation is here and has to be met and financed. Your school officials are trying to keep the schools up and the cost down. We ask for your support. We are laying our figures before you with no feeling that we have asked for a cent more than is necessary.

In closing I wish to thank the members of the school board, the principals and teachers and all others who have in any way contributed to the success of the schools this year.

Respectfully submitted,

ALDEN B. HAYES,

Supt. of Paris Schools.

Report of Principal of South Paris High School.

To the Superintendent of Schools :

I herewith submit my second annual report as principal of South Paris High School.

School opened September 10 with an enrollment distributed as follows :

Postgraduates	1	Sophomores	28
Seniors	34	Freshmen	37
Juniors	23	Eighth	32
Seventh	27		

The attendance this year has averaged .963, which is better than last year. Eighty-seven pupils were not absent from any session during the fall term. The attendance would be improved if parents would refrain from keeping children out of school for reasons other than sickness. It would be well to remember that careless habits of attendance will result in other careless habits which will be detrimental to the future welfare of the child.

A few changes have been made in the curriculum. Regular courses in physical education have been introduced with Mr. Small as director. These courses are similar to those in the city high schools and are thoroughly modern. They are held in the gymnasium during the last two periods of the school day on Tuesday, Wednesday, Thursday and Friday. Since health is considered the most important of the cardinal principles of education, the value of physical education is self-evident. Some of our students have had difficulty in doing the arithmetic required of them in the commercial course. To remedy this a ninth year course in general arithmetic has been introduced. Eighth grade French has been abolished as it demanded the student's time without being of much value.

The school is criticised because too much is demanded of the students in the way of outside activities. At the beginning I desire to say that the extra curricular activities are optional and not required.

Are the outside activities of any value? Extra-curricular activities are found to offer the school its best opportunity to help the students do better certain desirable things they will do anyway as they take their places as members of social units, and to exercise those qualities of citizenship which are fundamental to society. In these activities there is a channel through which the school may utilize the spontaneous interests and activities of the adolescent, and through these lead to higher desirable types of activities.

Are there more activities in the high school than ever before? There are less this year than there has been for the last three years, since we have dropped winter sports and the French paper.

Are there more outside activities in this school than in the other schools in the county? I believe that

we have more than Gould Academy and less than Norway, Mexico and Rumford.

Are the students slighting their school work? A large majority are not, for our failures conform to the normal frequency curve, and the ten students entering colleges and normal schools this year are passing all of these subjects at the present time.

Are the high school students over-worked? It is true that a few students are doing more than their share, but that condition of affairs is equally true of the older people in the community. The students who are busiest are receiving the best preparation for their after-school life. The school officials believe in keeping the child occupied in so far as they can without damaging his health. Since the health of those who are the busiest is excellent, we do not believe that they are overworked. If the unlimited energy of youth is not directed into approved channels, it will flow elsewhere. The morale of schools with few activities is much lower than that of schools with many.

The usual school activities were held during the fall term. The Freshman-Sophomore reception was the high point reached in the full social life. The commercial department printed the fall issue of the "Chronicle" which compares very favorably with the papers printed by the commercial departments of other schools. Although our football team suffered a majority of defeats, the season was successful since we defeated our traditional rival and will have a veteran team next year. The outlook for basket ball is encouraging. The Athletic Association fair and operetta netted the association \$208.00. The association has paid for all equipment bought during the last eighteen months, has reduced the old debt and is fully insured. Debating teams will represent Paris in the Bates League. The Seniors will present "The Touchdown" for the annual play.

The school has been well supplied with necessary equipment during the past year. The policy of buying the textbooks before the opening of school in the fall increases the efficiency of the school. This year we were able to carry on our regular full time program of studies on the opening day of school.

The introduction of new studies simultaneously with

the reduction of the teaching staff has placed extra duties upon the teachers, so that the teachers are occupied during every period of the school day.

I desire to take this opportunity to thank the students, teachers, citizens, superintendent and board members for their co-operation during the past year.

Respectfully submitted,

MAYNARD C. WALTZ,

Principal of South Paris High School.

Report of Principal of West Paris High School.

To the Superintendent of Schools :

I herewith submit my seventh annual report as principal of the West Paris High School.

The school year opened September 10, with a total enrollment of 58 pupils, distributed by classes as follows :

Grade 12, 6.

Grade 11, 16.

Grade 10, 11.

Grade 9, 25.

During the year two pupils left and one transferred from Oxford High, making a total enrollment on January 1, 1929, of 57, or a net loss of one pupil. The attendance for the fall term of 60 days was .957. Fifteen pupils were not absent at any session.

The parents, however, should continue to co-operate with the school officials in the matter of attendance and home study. The boys and girls should be kept in school whenever possible. The daily program and extra-curricular activities require at least from one and one-half to two hours of home work daily.

The faculty is the same as last year. The same courses are offered—College Preparatory, General, Commercial and Domestic Arts. The percentage of pupils enrolled in each course is satisfactory.

The customary activities for the fall term have been carried through. The Athletic Association benefitted financially by the Curtis Publishing Company contest. The Senior class has presented its annual play.

The Athletic Association will hold a fair and present the play, "Patty Makes Things Hum," and the Junior class its annual play later in the year. The school has joined the Bates Debating League and hopes for success in this field. The school paper, the "Nautilus," was printed by the pupils last year, and a surplus of over \$60.00 was realized, and used to help pay for the mimeograph machine. It is hoped that a greater profit may be realized this year. The money received from the operetta presented last spring was used in purchasing a drum set for the orchestra.

On October 5, through the efforts of the Parent-Teacher Association, a medical examination was given to all the pupils in the building. The outstanding defects were in teeth, tonsils, and adenoids. When these defects are remedied the children are made happier and given a better chance in life. It is hoped by the association that the corrective work may be extended to all the defective cases.

The gymnasium is in use every afternoon, by the girls' and boys' basket ball teams, from 3:15 to 5:00 o'clock and from 6:30 to 8:00 on three evenings a week. Prospects are good for a successful season.

Physical education is particularly emphasized this year, four 25-minute periods a week being devoted to it. The work consists of marching tactics, corrective exercises, class and group games or natural activities, and health lessons.

The two outstanding needs of the school are new seats and desks for the main room, and a gymnasium that would at least meet the minimum requirements.

In closing I wish to thank the pupils, teachers, parents, superintendent and school committee for their co-operation in continuing the work of the schools.

Respectfully submitted,

DWIGHT L. LIBBY,

Principal West Paris High School.

Report of Physical Education Director.

To the Superintendent of Schools :

I hereby submit my first annual report as Director of Physical Education in the Paris schools.

When anyone hears the words "physical training"

it immediately brings to their minds the old type of calisthenics, that practically everyone disliked. Little benefit was received from this type of exercise because it was not a scientifically conserved program.

I have introduced into the Paris schools this year the modern type of physical education. This type of physical training has been in practice in the larger schools and colleges for the past five to ten years. It has met with much success and consequently our schools are adopting this form of physical training.

Before taking up the work I have been doing so far this year I would like to state the aim of modern physical education.

"Physical education should aim to provide an opportunity for the individual to act in situations that are physically wholesome, mentally stimulating and satisfying, and socially sound."

My work as physical director has been to make out a program for all the schools in the town and instruct the Junior and Senior High of South Paris. It was my plan in the fall to visit all rural schools once a week and observe the class in physical training. I found this impossible as my teaching and coaching in the high school did not give me time to visit each school once a week. I have, however, visited each school as often as possible and found great success in all cases.

The kind of a program that I have given the schools has been the same for everybody. The pupils in the rural schools receive the same kind of exercise that I give to the classes here in the Junior and Senior High. Some of the work we have taken up is as follows: corrective exercises, individual and competitive stunts, marching, rhythmic and story plays, drills and games.

In consideration of the fact that this is the first time that modern physical education has been put into the schools of Paris, and also the limited supply of apparatus and materials to work with, I think the pupils have gained a great deal from their physical training.

I want to thank the teachers and anyone else who has helped me in my work, and I hope the citizens of the Town of Paris will see the benefit from a course in physical education and raise money to support it.

Respectfully submitted,

HENRY D. SMALL,
Director of Physical Education.

Report of the Instructor of Home Economics.*To the Superintendent of Schools :*

I hereby submit my fourth annual report as instructor of home economics in the Paris schools.

The Butterick Publishing Company's dressmaking contest closed January 15, 1928. Twenty-one girls, twelve of the Senior High and nine of the Junior High, entered the contest. The three judges were Miss Effie Bradeen, Mrs. Amy Webster and Mrs. D. M. Stewart. The three dresses chosen were those made by Evelyn Record, first prize, Lena Kilpelainen, second prize, and Ava Grant third prize. The local contest prizes were given by the Butterick Merchant—N. Dayton Bolster Company, as follows :

First prize, \$5.00 in merchandise plus the price of dress materials.

Second prize, \$3.00 in merchandise plus the price of dress materials.

Third prize, the price of the dress materials.

The winning dress was sent to the National Contest at New York and received a badge of honorable mention.

During the spring term a dinner was served to the Oxford County School Masters' Association. The weather and travelling were not favorable, but the expenses were met, and \$2.19 was deposited in the Paris Trust Company.

The same term a public bridge party was given at the High School Assembly with the following ladies as hostesses: Mrs. Alden B. Hayes, Mrs. Charles Bowker, Mrs. Elmore Edmunds, Mrs. George Doran, and Mrs. Harold Fletcher. Punch and crackers were served by the home economics girls, and about \$47.00 was presented to the department to purchase dishes.

At the teachers' county convention in September, 1928, a dinner was served to forty-six members of the Oxford County School Masters' Association. The receipts were \$50.94 with net proceeds of \$31.65, which was deposited at the Paris Trust Company.

From the food, basketry and interior decorating classes \$11.70 has been paid into the office.

This term we have added dishes, glassware, silverware and linen sufficient to serve eight people. The girls have just finished hemming the linen and making

flannel cases for the silverware. A little later we are planning to serve a few meals to as many of the parents as possible to enable the girls to receive practice in the art of serving.

At present the club has \$42.64 on deposit at the Paris Trust Company.

In behalf of the home economics girls and myself I wish to express our thanks for the ice cream freezer donated by Mrs. Susie Nason. Also we wish to thank every citizen who has been interested in our department.

Respectfully submitted,

DRUSILLA BISHOP,

Instructor of Home Economics.

Report of Supervisor of Music.

To the Superintendent of Schools :

I hereby submit the following report of music in the schools of Paris from January to June, 1928.

The South Paris High School Orchestra played in public as follows :

Jan. 12th, Reception at High School.

Feb. 3rd, Junior High Assembly.

Feb. 7th, Twin-Town Nature Club.

Feb. 14th, drama—"Cappy Ricks".

Feb. 16th, men's supper and entertainment at Congregational church.

Feb. 28th, Community Club.

Mar. 6th, entertainment at Universalist church.

Mar. 13th, entertainment at Paris Hill.

Mar. 16th, debate at High School.

May 8th, entertainment at Universalist church.

May 25th, drama—"Bab".

May 29th, school entertainment at Paris Hill.

On May 16th the primary grades at West Paris presented the operetta, "A Midsummer's Day," and the grammar grades the operetta, "Aunt Drusilla's Garden".

At South Paris on May 18th the annual school festival was held in Association Hall. "The Playroom at Night" was presented by the Porter Street school.

folk dances and songs by the Main Street school, and the Brick school gave the operetta "A Midsummer's Day".

On May 29th at Paris Hill the pupils of the Lincoln School gave a school festival.

June 1st at Association Hall Grades V and VI presented the operetta, "Aunt Drusilla's Garden" and the pupils of the Junior High School gave the Junior High Jubilee.

At West Paris on June 16th the high school students gave the operetta, "Bit o' Blarney".

Respectfully submitted,

HELEN B. SHAW,

Music Instructor 1927-28.

To the Superintendent of Schools :

The following music report is a summary of the work from September, 1928, to January, 1929.

The Senior High orchestra played three selections at the Oxford County teachers' convention September 21.

The orchestra also played several selections at the annual fair and circus given November 23.

In the evening of November 23, the musical comedy "Her Song" was given at Association Hall under the direction of the John B. Rogers Producing Company. The proceeds went to the Athletic Association.

The Knights of Pythias engaged the orchestra to give a concert at a special meeting on November 9. This opportunity was greatly appreciated by the orchestra members, inspiring them to harder work in the future. With the money earned new orchestra music has been added.

This year the orchestra consists of six violins, cornet, trombone and piano, drums having just been added. We have four regular pianists. We are very pleased to say that four new members are ready to come out for orchestra the second semester, making a total of eighteen members.

In order to make possible an orchestra in the future we are starting violin classes in grades three, four and five. There are also pupils in Junior High who will

study privately. We have obtained the services of Mr. Alfred Cota as instructor. An effort is being made to start cornet classes in the same way.

We have started an orchestra of four pieces (piano, violin, clarinet, drums) at West Paris High School. Two more violins and a saxophone are nearly ready to enter. This is the first time West Paris High School has had an orchestra since 1924. Much interest and enthusiasm is being shown by the orchestra members and the school.

New octavo music has been ordered for the Senior High School glee clubs at South Paris and West Paris. New unison song books are being used in both Senior and Junior High Schools.

We are taking up the study of the instrument families in story form. This enables the child to recognize the instrument, its function in the orchestra, and through victrola appreciation to designate the various instruments as played. The objects of this course are to encourage the child to take up the study of some instrument and to more fully appreciate music.

In the Junior High Schools plans are under way to study, briefly, the most noted artists of the music world, especially musicians of Maine.

Parts for operettas, to be given at South Paris, West Paris and Paris Hill during the third term, will soon be assigned.

Respectfully submitted,

DORIS E. BRALEY,

Acting Supervisor of Music.

Warrant for Town Meeting.

To Charles O. Barrows, a Constable of the Town of Paris :

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the town of Paris, qualified by law to vote in town affairs, to meet at Association Hall, in South Paris Village, in said town, on Monday, the 4th day of March, next, at ten o'clock in the forenoon, to act upon the following articles, viz :—

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To see if the town will accept the reports of the Selectmen, School Board and Board of Health.

Art. 3. To hear the report of the Crocker and Bray funds.

Art. 4. To choose all necessary town officers for the ensuing year.

Art. 5. To see if the town will vote to have a road commissioner or road commissioners.

Art. 6. To see what sum of money the town will vote to raise for the repair of roads and bridges for the ensuing year.

Art. 7. To see what sum of money the town will vote to raise to pay snow bills for the ensuing year.

Art. 8. To see what sum of money the town will vote to raise for physical education.

Art. 9. To see what sum of money the town will vote to raise for the support of common schools for the ensuing year.

Art. 10. To see what sum of money the town will vote to raise for the support of free high schools for the ensuing year.

Art. 11. To see what sum of money the town will vote to raise for school building repairs for the ensuing year.

Art. 12. To see what sum of money the town will vote to raise for school supplies, apparatus and appliances for the ensuing year.

Art. 13. To see what sum of money the town will vote to raise for textbooks for the ensuing year.

Art. 14. To see what sum of money the town will vote to raise for permanent school equipment for the ensuing year.

Art. 15. To see what sum of money the town will vote to raise for district superintendent for the ensuing year.

Art. 16. To see what sum of money the town will vote to raise for flags and poles for the ensuing year.

Art. 17. To see what sum of money the town will vote to raise for a high school library.

Art. 18. To see if the town will vote to raise fifteen dollars for each school in town, the same to be expended for school betterment or equipment in such schools as raise and expend a similar amount for school betterment; providing all expenditures shall be subject to approval by the school committee or superintendent, and further provided that each school shall receive aid from this fund, dollar for dollar, and up to the limit of fifteen dollars (\$15.00).

Art. 19. To see what sum of money the town will vote to raise for insurance for the ensuing year.

Art. 20. To see if the town will vote to instruct the school committee to appoint one or more school physicians.

Art. 21. To see what sum of money the town will vote to raise for domestic science for the ensuing year.

Art. 22. To see if the town will vote to put in a course of agriculture, and raise money for the same.

Art. 23. To see if the town will vote to put in a course of manual training, and raise money for the same.

Art. 24. To see if the town will vote to instruct the school committee to maintain a school in the Mountain District.

Art. 25. To see if the town will vote to instruct the school committee to maintain a school in the Tubbs District.

Art. 26. To see if the town will vote to instruct the school committee to maintain a school in the Tuell District.

Art. 27. To see what sum of money the town will vote to raise to provide free medical inspection for all the pupils in the schools.

Art. 28. To see if the town will vote "Yes" or "No" on the question of appropriating and raising money necessary to entitle the town to State aid, as provided in Section 19 of Chapter 25 of the Revised Statutes of 1916.

Art. 29. To see if the town will appropriate and raise the sum of ten hundred and sixty-two dollars (\$1,062.00) for the improvement of the section of State aid road as outlined in the report of the State Highway Commission, in addition to the amounts regularly raised for the care of ways, highways and bridges; the above amount being the maximum which the town is allowed to raise under the provisions of Section 18, Chapter 25, of the Revised Statutes of 1916.

Art. 30. To see if the town will vote to raise money, and what sum, for the maintenance of State aid highway within the limits of the town.

Art. 31. To see if the town will vote to raise money, and what sum, for the maintenance of Third Class road within the limits of the town.

Art. 32. To see if the town will vote to raise money, and what sum, for the maintenance of Special Resolve road within the town.

Art. 33. To see if the town will vote to raise money, and what sum, for cutting bushes along the highway limits of the town.

Art. 34. To see what sum of money the town will vote to raise to improve the road from the Church at North Paris, extending toward Morse Hill, so-called.

Art. 35. To see what sum of money the town will vote to raise to pay miscellaneous bills for the ensuing year.

Art. 36. To see what sum of money the town will vote to raise for the support of the poor for the ensuing year.

Art. 37. To see what sum of money the town will vote to raise to pay town officers' bills for the ensuing year.

Art. 38. To see what sum of money the town will vote to raise to pay interest on funds and temporary loans.

Art. 39. To see what sum of money the town will vote to raise to pay interest on refunding bonds.

Art. 40. To see what sum of money the town will vote to raise to pay interest on bridge bonds.

Art. 41. To see what sum of money the town will vote to raise to pay interest on school house bonds.

Art. 42. To see if the town will vote to appropriate the sum of one hundred fifteen dollars (\$115.00) to be expended by William K. Kimball Post, G. A. R., in observing Memorial Day, the same to be paid from the miscellaneous account.

Art. 43. To see if the town will vote to appropriate the sum of thirty-five dollars (\$35.00) to be expended by Hannah Carter Tent, D. of V., in observing Memorial Day, the same to be paid from the miscellaneous account.

Art. 44. To see what sum of money the town will vote to raise for sidewalks.

Art. 45. To see what sum of money the town will vote to raise to move the sidewalk from the corner of Pine Street to the corner of land of C. Guy Buck, to conform to the widening of Main and Pine Streets.

Art. 46. To see if the town will vote to authorize the treasurer to hire such sums of money as may be needed for temporary loans, the same to be paid on or before January 1, 1930.

Art. 47. To see if the town will vote to pay the premium on the bonds of the collector and the treasurer for the ensuing year, the same to be paid from the miscellaneous account.

Art. 48. To see if the town will vote to build a tool house on Paris Hill, to house the road machine, roller and other property belonging to the town, and raise money for the same.

Art. 49. To see if the town will authorize the selectmen to cut the bushes and grass in the old neglected grave-yards in the town, and raise money for the same.

Art. 50. To see if the town will vote to authorize and instruct the selectmen to buy a gravel pit, and raise money for the same.

Art. 51. To see if the town will instruct the selectmen to divide and apportion the road money raised at the annual town meeting to the several sections according to the mileage in each section.

Art. 52. To transact any other business that may legally come before the meeting.

The selectmen will be in session at the Assessors' Office, South Paris, at nine o'clock A. M., on the day of the meeting to revise the list of voters.

Given under our hands this 11th day of February, A. D. 1929.
